1. Crack Improvement explanation by Mr. Siva.
 - a. Color crack before color process detected by new visual inspection. 874M 2Kpcs with new inspection method
IQA checked 125pcs and found no crack.
 - b. White crack after color product, crack found mainly on ranking machine. Visit in Sept Mr. Siva will explain details of outcome.
 - QA do daily by off crack of first 50pcs before run ranking machine
 - New carton Test Liner paper change to Kraft Paper for better carton strength (End Jun test shipment)
2. KA0201 oily, new sample rank98 300pcs from new lot. Mr. Siva also explained countermeasure on firing temperature heat curve as control point.
Mr. Azman confirm that Kamaya using 200K/month from Sangkang and ECT.
3. 3080M squariness measurement method $(L1 + L2) \div 2 = \text{Average}$. Mr. Siva explain correct measurement method stated in the drawing to Ms. Siti (IQA).
ECT having quality issue.
4. 594BS 100Kpcs new order with all rank accepted and 1K and above/rank. New press for mid Sep shipment.
Continue order 3 – 6 months.
5. New Carton crack result good. 1 carton 2Kpcs was inspected 100% and found no crack. Kamaya Ms. Siti (IQA) request to change the carton ASAP.
6. 28-Aug shipment all stop as Maruwa QA new inspection found similar 1.5% crack found in Kamaya. Partial shipment required on Mon 24-Aug ETD M[M]
Of 1598M and 3080M min 20Kpcs. Continue with Thu 27-Aug and every Thu for balance order. Mr. Siva will visit Kamaya on 28-Aug Fri to re-confirm crack with Kamaya IQA.
7. Kamaya having order request 6B/month but capacity only 4.2B/month. Mr. Azman remind Maruwa have advantage near to Kamaya and without crack problem he prefer Maruwa as main supplier. ECT quality level went down especially problem on inner dimension and squariness. Even Sangkang give good quality but due to distance and long order lead-time, Mr. Azman prefer Maruwa.
8. I told Ms. Emily 112B (Vishay Israel), 198B (Taiyosha, Vishay Israel) still running for other customer. 594BS will start press with all rank and 1K above/rank for Kamaya only. 360K, R12195 and 1608MRW stop.
