

No	Complaint / Request	Product	Image	Details	MARUWA Comment	PIC	DATE
1	Inner dimension	3080M		RALEC suspects the inner dimension issue. Measurement shows product still in spec but values shows max & min mixture. RALEC wants to know how actually MARUWA measure and wanted to standardize it	MARUWA believe the problem I actually from the angle or parallel issue. Have recommende to speed the angle sample for 7910 which was received in Feb'16.	Mr Izumo	Result:30th Mar 2016 (RALEC)
2	Lot No indication	All product			Maruwa will include small label on bundle from April 16 shipment onwards	Mr Peter (warehouse)	April 2016 shipment
3	Red substrate shipment	0201 (65x74x0.2)		Request Maruwa to shipout colour Substrate for 50K. The previous evaluation result accepted. This is action for laser scribe	Will arrange product to shipout	Mr Prasan	28-Mar
4	Angle (+/-)	7910M		Request Maruwa to shipout 5K each for R& L for further evaluation. The previous 200pcs evaluation: Result OK	Sampled shipout and pending for RALEC evaluation	Mr Nazli	TBA
