GENERAL FEEDBACK/STATUS 1. 3080M Angle => Result estimated by Friday 22/04 (Currently in Final process) 2. Previous feedback on sample delay being rectify. All samples have been submitted for evaluation <table border="0"> <tr> <td>Product</td> <td>Qty</td> <td>ETD</td> </tr> <tr> <td>16P8R</td> <td>10000pcs</td> <td>08-04-16</td> </tr> <tr> <td>D144BR</td> <td>6000pcs</td> <td>08-04-16</td> </tr> <tr> <td>D108R</td> <td>4700pcs</td> <td>08-04-16</td> </tr> </table> Invoice No: CV00097165S 3. New samples requested YCB12-2B => Requested to submit drawing to confirm the specs & RANK T1532-8R => PO availabvle for 10K => ETD date 22/04 4. Incoming status => IQC requires Maruwa to focus more on the crack since this is effecting MARUWA's grade Explain to YAGEO to support on this especially on buyoff data. YAGEO agreed to support as below a. Buyoff result to be submitted by weekly or bi-weekly b. Propose to use WECHAT to provide info so that immediate action can be taken for the following shipment. Currently only submitting on monthly basis c. Any dimension issues, must be confirm with smartscope the differences. (Since there is difference between MARUWA & YAGEO master) 5. The level between Maruwa & ECT is same and YAGEO believe Maruwa should be able to improve due to Maruwa experience in Ceramics. The biggest weekness is Maruwa consistency in quality and quality level always changed especially for sample & masss roduction. 6. Purchasing Ms Julia will confirm the ON-HOLD status and feedback by next week. Meeting adjourned at 12:00pm																																																																																																																						
Conclusion & Opinion																																																																																																																						
IQC COMMENT Generally MARUWA improving on the response but still crack need to reduce in order to improve MARUWA grading. Generally ECT & MARUWA are in same level but hoping MARUWA can improve. YAGEO will support in any way to improve the quality level. Purchasing Comment a. Sample delivery - 4 ~ 5 types delivered and hope can maintain the same. b. Will issue PO for Maruwa once the M type approved by Engineering section c. Return goods - all cleared but have some on-hold for crack which will be declared by next week d. Request Maruwa to speed up on the imprpovement so that YAGEO can provide PO. e. Hope to work with Maruwa since this relation was started a few decades ago
