This is also to have a fix meeting time with YAGEO	Mr Siva	-																																																																
Meeting adjourned at 12:15pm																																																																							
Conclusion & Opinion																																																																							
Generally discussion on quality and especially on crack improvement																																																																							

No	Complaint / Request	Product	Image	Details	MARUWA Comment	PIC	DATE
1	Sample request	WA04-2C (TC122)	NA	Product weight + paste below spec. The amount of paste insufficient on product	Will check with engineering to understand the problem	Mr Izumo	reply 15/08
2		0201		Sample received 1000pcs each blank & colour	Still pending for evaluation	YAGEO: Ms Vivian MW : Mr Siva	TBA
3		YC324 (D144BR)		Current in evaluation for reliability test (1000 hrs) estimated PO in Sept'16	in evaluation	YAGEO: Ms Vivian MW : Mr Siva	25th Aug'16
4	Annothite	YC102		Dtected abnormal on surface and currently YAGEO is firing 850oC before printing. Yield improve by 10%	Inform to check back process	Mr Izumo	17-08-16
5	Angle	3080M 1598M 874M		Sample received and pending for IQC buyoff.	Propose to include measurement error for 20u. YAGEO rejected this proposal before our competitor is controlling by 50u and MARUWA is given a tolerance of 80u. Requested Maruwa to improve the angle condition. Data have being given comparing Maruwa's angle and other supplier (EC, Sangkang)	Mr Siva	-
6	Crack	All product		New carton evaluation result shows "0" crack during incoming YAGEO requested additional a. Side pressure test b. Transport test c. Penetrate test	Will carry out the test and submit the data	Mr Siva	20-08-16
7	QIT	General		Decided standard time for QIT submission YAGEO: 07th every month 20th: mArUwa submit report 20th ~ 25th: Monthly meeting YAGEO	This standardization required to ensure report submitted on time. This is also to have a fix meeting time with YAGEO	Mr Siva	-
