

Customer: Tong Hsing Electronics Taiwan		Date: 28-Dec-16	Time: 9:30
Participant From Maruwa 1. Mr Sasaki MJ R&D 2. Mr Siva MMSB QA 3. Mr Inoue Maruwa Taiwan 4 Mr Vega 5. Mr Eric		Participant From Organizer 1. Ms Janet Purch MGR 2. Ms Polly Purchasing 3. Mr Mark QA 4 5.	
Report To 1. Mr.Anthony,Mr.Ogawa 2. Mr.Seeni,Mr.Naga,Mr.Sinna 3. Mr.Theva,Mr.Shahrudin,Mr.Fauzi 4 Mr. Matsumoto 5.			
Agenda			
Meeting starts at 930am Quality Disucssion Meeting started with presentation from Maruwa. All the previous finding have been explained and a few question raised by TH members. Below are the summary of the action items			
MARUWA TONG HSING IMPROVEMENT ACTIVITY FOLLOW-UP		28/12/2016	
No	Complaint / Request	Image	ACTIVITY
1	COC & QDS	NA	To standardize the spec for SG : 3.55 ~ 3.7 Water Absorption: <1% Reflectivity : 91% ~ 95%
2	Update Raw Data		Raw data for Casting machine & Firing machine submitted. Requested Maruwa to include the improvement Lot No in the raw data as well
3	Water Absorption comparison		TH requires Maruwa to submit data for water absorption differences between Main Firing & 2nd Firing
4	2014 product analysis		Reanalyze the 2014 sample for Maruwa to understand the differences between 2014 & 2016 product condition. Analysis consist of SG, Reflectivity & Water Absorption
5	SG measurement variance		TH 16pcs data & Maruwa Data shows a difference of 0.1g/cm3. TH would like to know the reason of this difference
6	HBS 2 - Suji/Scratch		TH requested MW to check on visual defect which detected during colouring at TH. Sample submitted to MMSB for analysis
As of today's meeting, Maruwa & TH have come a conclusion for certain quality check point a. Sample size => 25x25mm b. Product Specs : SG 3.55 ~ 3.7g/cm3, Water Absorption : <1% & reflectivity: 91% ~95% c. SG measurement method Request from Purchasing manager - Ms Janet TH would like to visit Maruwa Malaysia with CREE for 25mil product. TH would like to know why Maruwa not allowing for both parties to come together. MARUWA Team: Explained that Maruwa allows TH to visit and not for TH's customer. There is a few reasons for doing so a. Company Policy b. Process confidentiality c. Process & product requirement d. Action taken by Maruwa should be explain by TH to CREE and it is not the responsibility of Maruwa Despite explaining, TH still not accepting and requested Maruwa to reply in writing Meeting adjourned at 12:30pm			
Conclusion & Opinion			
Todays meeting mainly focused on the joint visit between TH & CREE. TH requested MARUWA team to discuss back with Top management and reconsider the decision. Quality - There is not much issue and TH will input in the line for the countermeasure lots which being shipped on 22/12 & 30/12			

No	Complaint / Request	Image	ACTIVITY	PIC	DATE
1	COC & QDS	NA	To standardize the spec for SG : 3.55 ~ 3.7 Water Absorption: <1% Reflectivity : 91% ~ 95%	Mr Loges	COC - 30/12/2016 QDS - 05/01/2017
2	Update Raw Data		Raw data for Casting machine & Firing machine submitted. Requested Maruwa to include the improvement Lot No in the raw data as well	Mr Loges	30/12/2016
3	Water Absorption comparison		TH requires Maruwa to submit data for water absorption differences between Main Firing & 2nd Firing	Mr Loges	5/1/2017
4	2014 product analysis		Reanalyze the 2014 sample for Maruwa to understand the differences between 2014 & 2016 product condition. Analysis consist of SG, Reflectivity & Water Absorption	Mr Loges	5/1/2017
5	SG measurement variance		TH 16pcs data & Maruwa Data shows a difference of 0.1g/cm3. TH would like to know the reason of this difference	Mr Loges	5/1/2017
6	HBS 2 - Suji/Scratch		TH requested MW to check on visual defect which detected during colouring at TH. Sample submitted to MMSB for analysis	Mr Loges	5/1/2017
