添付資料 Attachment 有 Yes 無 No

出張者 Name Mr Siva

同行者 Colleuge Mr Ronny

MM-IN-RD-9100-P06-04 Rev.2

出張先 Customer	WALSIN CHINA	相手先 面談者 Attendance	Mr Zhang - R&D Head Ms Sheery Liu - Purchasing
出張目的 Visit Purpose	☒ 7910M - New sample ☒ WA04-4C - Sample evaluation ☒ 874M - Chipping	会議フォローアップ項目 Meeting Follow Up	☒ As attach in below table ☒ ☒

報告内容 Report

Meeting begin at 2:00PM
 Discussion : Quality topics as below
 a. WA04-4C - Inconsistent resistance
 b. 7910M - Requalifying product
 c. 874M - Chipping

Details of Meeting

WALSIN CHINA EXTERNAL VISIT - ACTION PLAN

11/9/2019

No	Product	Activity	MM		WALSIN	
			Date	PIC	Date	PIC
1	WA04-4C Inconsistent resistance	4 type samples evaluated and result shows all product meets the resistance spec (0 ~ -40) Next action Shipment approval for WA04-4C as below Sample #1 : 30kpcs Sample #4 : 2kpcs Walsin would like to further evaluate for Sample #4 since this 2 samples shows yield higher then 85% Product will be shipout under commercial value	TBC	Mr Siva		
2	7910M - Qualifying sample	Walsin accepted MM proposal to evaluate 3 type of samples of 7910M. Propose : Eliminate LDB slit Sample #1 : LDA 40~ 50 Sample #2 : LDA 80~90 Sample #3 : LDA 130~140 Sample evaluation result expected in 2 weeks after receiving the samples Current 7910 usage for Walsin : 2600kpcs/mth	20th Sept	Mr Amirol	04th Oct (Tentative)	Mr Zhang
3	874M Chipping	Explain activity taken in Maruwa for chipping (As explain in attach slides) Since Walsin still reworking the 400kpcs on hold (Current stock is 280kpcs), MM requested to evaluate the improvement product MM request : 100kpcs Walsin reply : 10kpcs PO will be issued to evaluate the incoming condition for corner chipping	26th Sept	Mr Amirol		
4	16P8R	MM sample approved and pending for PO issuance.	TBC	Mr Ronny		

Other info

- Blank substrate (0201) -Purchaser explained WALSIN China only produce 0402 only. Smaller then this will produce in WALSIN Taiwan & Kamaya Malaysia
- 16P8R - MM sample approved but no PO issued. This will be follow up by Mr Ronny for PO
- No any quality issue for chip array products, 1598M & 3080M. Focus will be for 874M to achieve back the previous shipment qty (400kpcs)

Meeting adjourned at 03:30pm

意見・Opinion/Conclusion

As mention above, we need to solve the 3 quality issue. WALSIN agreed to support MM by running samples & also further evaluate with bigger shipment qty. Current Walsin production running with 80% capacity until Nov'19
