ISSUE NO.3 -OTHERS

- 1) Year end closing issues
Schedule to submit report

Summary of the item to discuss (18-Dec-2019 ~ 22-Dec-2019)

1) Policy for inventory

Discuss on the non moving inventory after 1 year, non moving after 3 years

2) Revised costing November

Recheck qty opening & closing for those product which are no movement

3) Discuss on the money pay back MJ

4) video conference with PWC manager, Mr Ang. Discuss regarding costing variance

5) review PL forecast on Dec'19 ~ Mar'20

Queries on the inventory reduction for substrate dept

Mr Theva recheck on the slurry & coil inventory

Pending items :

1. MMSB will fix the amount of non-moving stock.

The figure should be close to the attachment but the cost variance is different because this is the data based on Oct stock report.

2. MMSB will calculate the amount of slow-moving stock to impair.

But HQ has not approved yet if it is possible to write-off. Datuk said he would discuss with the president

3. HQ Ms.Morimatsu will confirm with our consultant whether MMSB need to ship out the goods to

She also confirm with president the amount of inventory that you are allowed to sell to JM and the tin

4. Ms. Pang will check with PwC manager if MMSB changes the accounting standard for costing from

is it okay to drop the cost variance every month?

5. MMSB will make P&L forecast after impairment.

6. Mizutani san will change the standard price after receiving the COSTING file on 6th Jan 2020.

New standard price will be 100% or 95% of current selling price? The decision should be made after fir

nt.

JM or not.
ning of sales.

1 next FY,

rd out the NRV.
