5.		5.	5. Mr Mori & Mr Ogawa			

Agenda

No	Customer	Time	Product group	PO		Comment		Date	PIC
				QTY/yr	DATE	Quality	Delivery		
1	Shiun Yu	1:00pm ~ 1:30pm	SNT1/2 & 140AN/C	600,000 600,000	May'23	2022 shipment - Found inground product shipped especially at the centrepert of the product	Requested Maruwa no split the PO qty due additional cost during incoming	Mar'23	Mr Kitauji
2	Hsieng Chang	1:45pm ~ 2:30pm	Mixing HCDM, HD3M & HCDF, MSDTN1 & 2	80,000 80,000	May'23	MM requested to change the material type from L3 to AP960 Hsieng Chang : Requested to send sample for evaluation, agreed to change if no any quality issue (Especially on product color)	No abnormal	TBC	Mr Sinna
3	Great Jin Yao	2:45pm ~ 3:30pm	YNT1/2 & 140AN/C	1,200,000 1,200,000	Apr'23	No any quality issue for 2022/23 shipment	Requested MM to shipment 3000kpcs/shipment. Not allowing to split the shipment '=> Similar comment from Shiun Yu as the cosst of import is high * Requesting MM to review the unit price from USD to NTD	TBC	Mr Sinna Mr Siva
4	Xiamen Yi Long Sing		YNT1/2 & 140AN/C	600,000 600,000	May'23	No any quality issue for 2022/23 shipment	It's a sister company located in China. Similar comment on the split shipment	TBC	Mr Sinna
5	PAIJO	3:45pm ~ 5:00pm	P35M/F	1,200,000	Sept'23	No any quality issue for 2022/23 shipment	New yearly PO will be issued once completing the existing PO Paijo requested MM to review the mixing pricing		Mr Siva

Conclusion & Opinion

Catridge business status in Taiwan

- * Generally all the customer operation are running 3~4 days/week
- * Price increase impact for all the indirect material (Rubber, copper etc)
- * Info from Hsieng Chan - MOEN requested cost down for all the MOEN supplier in China by 30%
- * US market generally very slow and no sign of recovery in Q3 (July ~ Sept'23)

Overall Catridge maker at Taichung are facing the similar market condition
