

Station/Cam	Inspection side	Camera	Lighting	Category	Defects	Can be seen?		Description	Remark	Require ML?
						Naked eye	Under camera			
1, 4, 5, 7	Top	Line Scan - Monochrome 2	Dark Field	3D	Bumpy wave	O	O	A wave-like appearance	Wave usually occurs vertically	O
				3D	Edge warp					
				2D	Line	O	O	Similar properties to a Bumpy Wave, but a lot more 'compressed'	Line usually occurs vertically	O
2, 8	Top	Line Scan - Monochrome 1	Dark Field	2D	Scratch	O	O	A faint scratch	Cuts across from either side towards the center	X
				2D	Surface mark					
				2D	Side Chipping	O	O	A chipping-like appearance	Located at the sides of the part	X
				2D	Crack					
				3D	Stickly	O	O	A dust-like appearance	Often located on bumpy spot/dent	X
				2D	Tear					
				3D	Scar	O	O	Bumpy surface; Looks like a rash	NG is commonly referred to as Dent	O
				3D	Bumpy spot	O	O	Similar properties to a Dent	NG is commonly referred to as Dent	Insufficient samples; Requires further study
				3D	Dent	O	O	A dent-like appearance	Located at surface of part	X
3, 6	Top	Line Scan - Color	Bright Field	2D	Iron	O	O	Red in color	Defect has no specific shape	O
				2D	Surface oily					
				2D	Dirty	O	O	Dirty (general)	Defect has no specific shape, color, and/or size	X
Pick-and-place	Top	Line Scan - Monochrome	Backlight	2D	Dimension	O	O			
				2D	Index	O	O	Semicircle-like chipping (x4)	Located at the top-left side of the part	
				2D	Burrs					
				2D	Corner Chipping	O	O	Corner chipped off	Located at part's corner	
				2D	Index Chipping	O	O	Index chipped off	Located at part's index	
				2D	Pinhole	O	O	Small circular hole on part's surface	Aside from backlight, most visibly seen in Mono 2
